

TO: Bob Tomko
FROM: Marcia Taleff
SUBJECT: **5-15 REPORT**
DATE: September 17, 2002

This Week's Issues:

- C6-We are going to ship ground water this week.
- C1- Nothing special just routine shipments. I sent a sample out of the oil from Bldg. 3 for PCB's because it failed a chlor detect test. It has a lot of jet fuel/diesel in it for some reason which could be why it failed. Tony may have contaminated the sample or something leaked in there.
- Compton-We are shipping 63 drums of water tomorrow.
- Contract Issues-
Region 2 Hazardous Waste Contract-Nothing new

This Week's Accomplishments:

- Just the usual

Next Week's Issues:

- Nothing yet

Upcoming Events:

- Nothing Special.

Personal Comments:

- Nothing Special.
